OUR VISION

"All Floridians have equal opportunities to attain financial stability"

"Last year, when my parents found out there was a finance class at Blankner Middle School that was made possible through a financial education program of the Florida Prosperity Partnership, they forced me to join it. They told me that whatever I decided to do in my life, I would always need to know how to manage my money. The class has helped me to see the potential of my future, which has helped me to do better in all my classes. I have been on the honor roll every semester this year - a first for me. Now, my parents are not pushing me. I am pushing myself."
